

# REACH FOR THE STARS FOUNDATION

## Overview

Reach for the Stars Foundation targets children and youth towards ensuring equitable outcomes for every child and young adult in need of care and protection. We focus on youth development and addressing challenges that are faced by children, youth, and young adults in community and at schools, such as gender-based violence, teenage pregnancy, drug abuse, lack of learning materials and many other unforeseen challenges.

Our long-term goal is to change how both systems and families care for and invest in children and young adults, and we target stable middle-class adult outcomes for all the children we work with.

At Reach For The Stars Foundation, We believe that everyone deserves a decent standard of living. Equality of opportunity for everyone, without the necessity of putting oneself at risk to make ends meet. To lead a life where one's family and children are safe and secure. A life lived with honor and respect for oneself and others.

We believe that an acceptable standard of living may be attained. With our passion, diligence, and the support of our partners/ sponsors.

## Our Work

- ✓ Health
- ✓ Child Survival
- ✓ Social Development
- ✓ Youth Protection
- ✓ Water and Sanitation for health
- ✓ Education
- ✓ Homelessness

## Vision

To create a society where all children deserve the care and protection they require, young adults should be able to make the best decisions for their health, education, and livelihood.

## Mission statement

To contribute to the well-being of children, young people, and society through implementing effective programs and strategies.

## Our Core Values

- Honoring one's human rights.
- Consistency and dependability throughout the board.
- Commitment.
- Justice for the People.
- To ensure that everyone is treated equally.
- Gender Equality in All Areas.
- Inclusion and Wholeness.

## Philosophy

### Service beyond self.

When it comes to public service, we balance the needs of individuals with the needs of the larger community. We do what we do for the benefit of others. In our generosity, we demonstrate genuine care for the well-being of others without regard to our own personal advancement or financial gain.

## Responsibility

At every step, we assume responsibility for the work at hand, taking initiative to gather the necessary resources, and implementing viable solutions. It is our responsibility to ensure that our initiatives are properly implemented and that their outcomes are positive.

## Respect for human rights

People are born equal in dignity and rights, and we respect this. As a service provider, we are attentive to the religious and cultural beliefs of the people we serve.

## Approach

Our strategy is based on harnessing the zeal and tenacity of bright, ambitious young leaders while they are still in their formative years. As a result of our research showing that self-commitment is more significant than any other factor in improving quality and care, our initiative is categorically non-profit. Using this paradigm, we can effect change at a scale that is both highly scalable and resource unrestricted.

## Core deliverables

### Teenagers and young adults

By providing assistance, capacity building, education, and research, we aim to empower and encourage the active engagement of teens and young adults toward self-reliance and sustainable development."

### Children

To give holistic care and individual attention to every child in all matters of childcare and protection.
